Materials	"Biscotto bianco" ceramic.
Technical description	Hand turned and painted vases with magnesium oxide or "ramina" oxide decoration.
Dimensions	Ø 9 cm - H 28 cm
Weight	1,5 kg

OVERALL DIMENSIONS

DESCRIPTION

Matteo Thun's 7x7 ceramics. A limited edition of handmade vases. The handcrafted ceramic collection 7x7 shows 7 different archetypes with 7 different decorations. Half of the series was painted by tinting the pure pottery using an ancient method that emphasises its fragility and finish. Through the chemical procedure the vases become ceramic watercolours. The other half of the collection is all about black splashings leaving the individual marking to the hand of the craftsman. Mechanism and form, technique and expression melt and transform each piece into one of a kind. Only seven of each shape available. Made in Tuscany, Italy.
